Subject: deCODE

So far deCODE continues to limp along. They have not sold their business units off, I guess no takers. Below is the latest financial information released on the company and they project they can live into Q2 09 but not beyond without further financing. There have been no announcements of a financing but they did announce the exercise of a 30 day grace period on interest due on their debt. Bottom line, it appears they are on borrowed time.
