Jeffrey

My memory is you were not happy with the design of the house and got me involved in discussions with jack Robertson on making changes to the floor plans after the house was started .

Matt was estimating the house cost and I think you were uncomfortable with the budget and with how much time matt was back east leaving the project in lymons hands. That in my opinion is when you offered for me to go to the ranch. My position at New Albany may have influenced your decision to replace Matt with me.

hope this helps

Gary

Jeffery,

It is great to see you connected with us again. I talked to Stephen on your thoughts for the island and gave him some insight from my time there and the time I spent with you. You will like Stephen; he does good work and listens well. I look forward to our crossing paths sometime in the future.

Gary
