It is transmitted by any kind of sex play. Dirty hands - not necessarily 'after sex' dirty.

In some cases it can be caused by a bad diet. It is not a sexually transmitted disease. You can't get by it from someone who has it - just bacteria getting into the urinary tract.

Here is a list of things you should be tested for before conception:

- Canavan disease
- Cystic fibrosis
- Familial dysautonomia
- Tay sachs
- Bloom syndrome
- Fanconi anemia Group C
- Gaucher disease
- Mucopolysaccharidosis Type IV
- Niemann-pick disease type A,
- Dihydrofolate Dehydrogenase Deficiency,
- Familial Hypersulinism
- Glycogen Storage disease type 1a
- Maple syrup urine disease
- Nemaline Myopathy
- Usher syndrome type IF
- Usher syndrome type III
