**Subject:** Dave house

All the bathrooms need to be redone in dave's house; I will send you videos in the afternoon. Nobody thinks this could be finished in time. I found this place: [www.bathfitter.com](http://www.bathfitter.com) they can do a bathroom in 1 day by putting it over the existing tub and tile but obviously that is not going to look as great as a brand new bathroom... Just an idea
