Title: Catching up
Jeffrey-

I hope this email finds you well and nobody better than you knows that it's almost one year since this episode began. I hope you are in good spirits and want you to know that I think about your well being each and every day! I called a few times but you were busy and hope you have some time to talk or email. If you need anything or if I can help out in NYC, please let me know.

Best regards-

Bruce
