I understand that the East flag pole area is a priority and I will work on it tomorrow. I have some ideas but nothing on paper yet. I'll keep in touch.

thank you,, have you given thought to the second flag pole (kite house),, I need to start that as the priority I like simply breaking the concrete and putting grass good idea . it will soften but i don't like walking on it, remember everything is to be walked on barefoot.. the office pavillion is good but i don't think round elements should be introduced, but if they are they have to be quite wonderful,, there is nothing man made yet on the island that is round

Here are 3 quick site plan sketches for your review & comment:

- 1. Landscape treatment of the painted pool deck area*
- 2. Landscape & paving plan for the existing hexagonal pavilion (I'm calling it the Reef House)*
- 3. Office pavilion entry area*

Call me and I can walk you through the conceptual ideas and options.
