Hello Douglas ,

Please find attached the estimate, the floor it's based on and the retainer agreement. In moving forward, we require the retainer to start working on the elevations and 3D renderings. Also attached is an image of the Venus table in aluminum, also available in white. Below is the Fly table link which would also work well in the space and compliment the curved island top – let me know what you think.

“FLY” TABLE

<http://www.move.it/it/move/prodotti/57>

Click on arrow to see the table

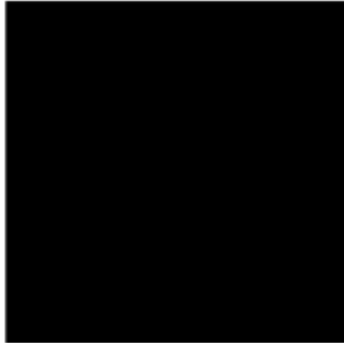

Please note that the winter promotion is good through the end of the month, in order to hold this price we need the retainer by March 31st. Contact me with any questions and I look forward to hearing from you and hopefully working together in the near future.

Safe travels,

Sandra C. Mora
