JE 6th floor rev 1.pdf

Larry please see that Mr Epstein gets the attached proposal for the 6th floor upgrades  
Let Jeffery know that the light on the Sub Woofer Amplifier is supposed to be Yellow. Its a lot  
older of an amp than the other one and they changed from yellow to blue in the newer amplifiers

I was told by Jeffery the other day to go ahead with the Sharp 65" LED LCD TV for the Master  
Suite on LSJ

I would like for him to give me a date for the PMC Listening test that would be great options for  
the LSJ Office along with The Master Suite Surround Sound package

Let me know if he has any questions or if I forgot to provide him with any of the info he  
requested. I've been really busy lately and might have missed something.
