So. They bought the language for origins. Only change is getting rid of the date of my retirement from their announcement. It should go back and am ready to sign if you agree. You have most recent version by email. They also want to release all the provosts determinations right away. I think we can argue that the one other than Australia defames my exec assistant so they should not release it. I am working on a redacted version of my appeal stuff taking out all names and identifiers. Anyway am in Germany and can talk whenever you want.
