The <https://promethease.com/> <<https://romethease.com/>> =A0 site appears to be down, they just emailed all cus=omers with a promotion (prompted me to suggest) and I guess their=server got overwhelmed.

If you have don= 23&me not very long time ago, there is nothing you need to do again, =br> your data is stored with 23&me, you (or I on your behal=) can download it and Promethease

will re-interpret w.r.t. clinic=llly relevant variants. It's a long and pretty technical report they re=urn

so if you like I can do it and give you gist. Let me know.

Of course if you want to do it yourself I= ll give you more detailed instructions how to get to your raw data and s=ch.

Hi=Jeff

Thanks for yesterday. If you do not have=someone else who can do this for you,

I am happy to take your 23&=mp;me data and run it through Promethease, then

give you a summar= of whatever noteworthy results come out in context of what I know about t=e field.

-Leon Pe=hkin

P.S. What I need is your account ID/password =or 23&me, or "raw data" downloaded from it.
