Jeffrey

I was thinking,, maybe we should hire Manny's guys from FJTurbine to Preform=Borescope and evaluate the power assurance runs on the engines,, Maybe Manny could find something internal with Borescope results that could force a shop visit on one or both engines?

Same idea, as we did with GIV APU and upgraded it due to Borescope findings?=Any findings beyond limits that warrant a repair must be addressed,

Just a long shot?
