Jeffrey

Attached photo's of Heli Pad for your reference

<=div>

as you can see there are multiple issues with finish.

<=r>

1. Heavy Material who supplied the concrete, screwed up the r=cipe by adding too much retarder to the mix.

2. No= enough mix to finish pour.

I have spoken to EB t=is morning, they will be forwarding an outline on how they propose to addr=ss the above issues

I would recommend we self per=orm Hut Pad and find another contractor to erect Hut

when we=have the go ahead

regards

Brice Gordon
