Re: GSJ: Dirty Beach

good evening Erika,

after conferring with the commissioner earlier today, a small, rubber-tired machine (like a small bobcat) may be used to assist in the removal of debris from the shoreline. only non-organic material may be removed from the beach (paper, plastic, metal, glass, other); no naturally existing cover may be removed (rocks, boulders, sand, vegetation).

regards,

JP

Good morning JP. I just wanted to forward on some more photos of the amount of the debris we are talking about that washed up on the beach and what Mr. Epstein was requesting the use of a small excavator. Much of the debris is heavy and dirty and has sharp edges.

Thanks for your consideration.
