Attached are 3 quotes for the replacement of the Solar Bat=eries on GSJ

GSJ currently has 70kWh of Usable battery power

<=iv dir="auto">

Option #1: 103.6kWh of saltwater batteries. / Large Battery=Modules with 3-4 week lead time  
\$73,678.00

Option #2 : 207.2kWh of saltwater batteries. / Large B=ttery Modules with 3-4 week lead time  
\$142,119.00

Option #3 : 70.4kWh of saltwater batteries. / Small Batte=y Modules - This is the same size as the system you have now. / 2 week lead-time plus shipping \$52,923.00

After reviewing current Maximum daily usage and the future WAP= development Pro Solar recommend Option #3, this matches GSJ existing batte=ies capacities

New batteries are maintenance free, and system can be expanded in=the future if needed.

How do you wish to proceed
