Hi Jeffrey,

I spoke with the mill in regards to your carpet. They fabricated two (2) new CONSTRUCTION samples in effort to help the raised cut pile in the pattern from "relaxing"

Sample 1 – the density was increased by about 20% to help the cut pile stay more rigid. I notice a slight difference. Anything of a higher density can compromise the softness. There is a price increase for this option.

Sample 2 – the loop line was raised to the same height as the cut. This makes the loop look wider. This changes the look of the carpet drastically in my option. Price will be same as prior.

Or we can gladly go back with the same as you have now.

Pictures attached. This is a construction only sample, not in your twilight yarn.

I can send them out to you today if you would like to consider??
