Boscoe:
FYI I'm meeting Lee Thomas at the barge at noon. The damage will be inspecte= and guesstimates made and logistics discussed. I will pass on what is deci=ed for your info and approval. I'll be sure to try to provide a time line.

Anna:
Ok. Thank you

Boscoe:
Ok. No easy fix here.
The best case scenario is for us to get the barge to haulover and do the hyd=aulic work and the engine work together, simultaneously. The engine has to b= raised or removed from the engine room to facilitate the repairs needed. A=lot of the engine must be disassembled to fix what is broken. The other hea= should be removed and inspected to be sure we are going to get a good prod=ct going forward. I'm looking to see if the engines are still under warrant=. We had a year from the time they went in service....

Anna:
Omg☺I call SBDD
Thank you Boscoe

Ann R.
