I believe that SA must take precautions re the n=w law. With the bad publicity and the election. th= country will receive thousands of lawsuits. document re=uests . from SA and from the U S agencies. I= will be a very long process. very long. . our civil jus=ice system is quite terrible when politics gets involved. Ther= will be an entire new industry devoted to soverign lawsuits. =C2 The law firms in washington will give you bullshit stories. =A0 they are only interested in making money. . !!! . =A0 There is no easy answer. but protection, and it is no= much, for the moment. The U.S justice will be able to attach=C2 all and any financial assets of the Kingdom.

C=ass action is one of the ways similar to volkswagen. =A0 restitution. funds. . My fear is that the american pu=lic will view SA as having taken most of its money from the wo=king man in the form of oil prices in the last twenty years . and th=y will want it back. In the past , the US wa= the white house. , it is now the people, uneducated, no geopo=itacal knowlege. just angry, . In the 18th century=the people revolted against their own king in france, the fren=h revolution changed the world. Now with the internet =A0 , the people of america will revolt against a foreign king. as there ar= no boundaries. It is very dangerous.

steps. alternate financial system. legal structur=s for asset protection. aramco offering , very problematic =A0 as public shares are easily attached. As I said in ma=, you have been walked into a trap. sorry,
