Didn't realize this got left in my inbox.

For whatever it is worth from 2 months ago;

- Currencies; would short Euro and Sterling against Dollar
- Commodities; bullish on oil. Should hit \$ 60 by year end.
- Equities; generally very cautious except European Banks, US Banks and Selected Emerging Market names.
- Fixed Income; very cautious. Risk/reward trade off very skewed
- Real Estate; quite cautious unless meets our return hurdles which =s minimum 5%. More emphasis on mezz debt with conservative LTV ratios.&nbs=;
- Other; generally more focused on structured transactions offering =urrent cash pay with downside protection and some equity upside.

Current views not very different from above.

I think JV will be difficult as we would rather not be in a non contro= situation and too many other complications to deal with.
