thanks , i agree the template for the game is going to be =musing. . we might add thought cards. . do

you can either spend some kha=ma points to get out of confusion. or just throw a fixed numbe= so that fate can play a

on another note. Im sure you will enjoy gromov. . =C2♦ his mathematics of category theory, only

,  $1+1=2$  / =C2♦ that makes sens. it is the RESULT of an oper=ation, the most advanced mathematics cannot

describ=e will the identity 1=1 . you must only make an assumption that it doesnt violate your system but it has no a=riori definition.
