Rich

Attached are proposals from both TS= and GWS (Gemini Water Services) for the refurbishment of the SW RO =n LSJ

As shown there are= Immediate Repairs required
Replacement of Control Panels, 75 hp =otor, Pump and Media filter service.
This is outside of any work TSG have already been ap=roved for.

At this time the RO is operational, but=failure of any of the above items would cause the plant to shutdown and th= Repair Time would be Lengthy and could lead to water restricti=ns and or the need to purchase water.

The option to Expand the Plant could be done at the s=me time.

<=div>
My recommendati=n is to proceed with Gemini Water Services.

Can we proceed with finalizing contracts with GWS?

regards
