I kind=of feel like each "context" is a different fitness landsca=e or function and that we live in multiple and conflicting fitness landsca=es - sort of like parallel universes or different sets of forces at differ=nt scales. The other part is probably the unit of "groupness =9D that you sometimes talk about - tribe, individual, species, etc. Each o= these fitness landscapes push us to search for a more optimal position - =ower, fun, comfort, energy, food, reproduction, security. These seem like =he different forces or "purposes" that drive us. This isn=E2 t exactly, right but I feel it's something like this. Talk=ng about your "languages" - I think that different people =ight care more about different dimensions of their fitness (maybe this isn=E2 t the right word) and the diversity and the weight of your existen=e on certain dimensions is a strong part of your character and also your a=ility to influence those on that dimensions (maybe the idea of local curre=cies is a better way to describe this and maybe you can boil down to power=money as you point out, but I'm not sure...)

Neri got tied up with a student's thesis review...

"meaning" ... maybe.

Great talking to you. Fun that Tenzin gets a lot out of these conversations=as I do.
