Subject: I have a dear friend of mine and one of my first in

Jeffrey,

I have a dear friend of mine Richard Socher who's adjunct professor at Stanford and Chief Scientist at Salesforce
<http://www.socher.org/> <https://www.theinformation.com/articles/the-scientist-behind-salesforces-ai-push><=a><<https://www.theinformation.com/articles/the-scientist-behind-salesforces-ai-push>>

Richard is one of the best people in AI I know with a great reputation in the Valley and supporters like Marc Benioff. We would love to get him into the running for the MacArthur genius grant. Is there any ways you can help/advise how to do that better?

We just need to nominate/refer him and it is unclear how to do that right.

I can connect you directly so you talk to him and create your own opinion on him and see if you want to help.

I deeply care about Richard as a friend and I think there's a good chance that his work on AI deserves this award. If there's any ways you can help I'd really appreciate that.

Masha
