Hi [REDACTED]

I will see how it works with TRRAX on Monday =ffice time. Regarding the engines this is stagger program where our fleet =ngines are intermixed to follow a preventative maintenance plan. Hours on =he engine are low. The CFM56-7 LLP first shop visit is at about 11000cycle= where this engine is at around 4000cycles. So you overhaul is very far aw=y. If you need to discuss it please feel free to call me to explain furthe=. We willl make sure you are satisfied

Hi [REDACTED]

Our system for Mx tracking isn't CAMP. It's TRAX which works differently. It's more of an enterprise system with financials in it too.

=br>

I could arrange a TRAX report for you if you like which serves the same process
