dear organisms

for the first time in my life

spent 45 minutes in private meeting with the Prime Minister of a country

namely Jamaica—

6 aides looking on, someone filming it, a photographer and my good friend of the Mandeville—China
Jamaicans, a friend of who indirectly organized it

i thought it was to be a two minute photo op, with me giving him a copy of WILD LIFE, i did indeed and a photographer
recorded the moment but we sat side by side and discussed lizards and frequent rural stories elite athletes and the
genetic admixture of Jamaicans blah blah blah

i found him as expected to be intelligent straight warm—compassion wedded to brain, exactly what you want in a leader
so let us hope he can actually do something to help this place—seriously!!

i am safely back in Quiet-ville, the dogs fed but still on the alert

and same with me

love from Jamaican
