our physical sense organs =A0 eyes , ears touch smell taste. .and maybe a location sense (my view) =A0 all operate in a very narrow band , we can only hear 20 - 20z hertz = see only a very narrow band across the electromagnetic spectrum feel touch from =span>mil ounces to a few pounds. smell only a few smell= (dog better).

these inputs =A0 along with , emotions , reflex, , all form a mu=tidimensional shape . a mobject. =A0 (ie a mental object). =A0 language is an attempt to be able to transmit my mobject to another brain. . i use words gestures music, soun=s. touch to transmit my mobject. =A0 it is necessary for animals that form a group. cells that fo=m organs need to communicate with each other , and the whole entity , and the whole entity or group communicates with the individuals<=span>.. mobjects are somewhat like w=at Wittgenstein called a mental picture, but picture is the w=ong translation. they have more dimensions than pictures=

the next subject is probabtility, =C2 it is important for you to grasp= If i tell you that 5 percent of all indian men will die=at age 62, and ask , you what does that mean about=your chances to die when you are 62. most people s=y 5 percent. THAT is not true , NOT true at =ll , the statement says th=t if I have a group of 1000 men , 50 are likely to die. =hat is it, it says absolutley nothing about any single individ=al. . nothing at all. unless the proba=ility is zero or 100 percent. ve=y odd. .
