Good Afternoon

I have been reviewing the Aircare Acces= Medical Kits and Defibrillator on LSJ.

Medical Kits are up to date. We will need to get a new Defibrillator, very old model and in bad shape.

At this point there is no Aircare Access Medical Kits on GSJ, I do not think we need the large more extensive kit there, but a standard would be good.

Do you wish to have a Defibrillator on=GSJ?

Please advise

Thank you

Warmest regards

Karen
