Good day rich

Dragonwaves are installed and running. Alister completed the diagnostic and they passed. Hector is running all firmware updates for the Dragonwaves remotely. Once that is done he will start to allow internet traffic.

Regards
Jruan

To be done:

-Landscaping to bury conduits
-8' Ground rods to be place in ground (Alister to forward pics show exact points)

Is that all that is open?

Landscaping will bury the conduits.

have ground rods been =nstalled?

Once we finalize the link and =erify the circuit. I will handle the grounding rods

Good day rich

In GSJ now with choice installing the secondary switch in the manager cottage, due to rerouting the conduit. =/span>

They say once it is in GSJ =hould be set. Landscaping will bury the exposed conduit to the cottage.

Regards

Jruan
