**Subject:** GIV window shade

Jeffrey

Pete sent the Left Fwd window shade to California for repair when we arrived= in TEB,. He installed the repaired shade this morning, and the window shade= failed to operate after a couple of shade operations,. Full up and Down, The repair report stated bad connection at plug, and was repaired.

Pete confirmed the window shade is still at fault by swapping another shade.= I want to confirm its not an airframe issue or voltage, causing this shade= to constantly fail.

Pete will send the shade to Cali for evaluation and repair again, he's havin= a Faux window shade installed in closed position while we await the shade r=pair.

Is this ok?

Thx  
Larry
