Future Tech are scheduled to be on sight July 31st fo= the install of Microwave Link from Sandia Crest to Main House.

Install of Link is expect=d to take 5 to 7 days

Th=re have some changes to the initial design.

Due to engineering and tower owner concerns, =he existing T1 link will be decommissioned,

New Antennas will be installed in place=of existing.

T= Phone service and Data services will use new link,

Please note during this timeto the Ranch will be disrupted.

CenturyLink

There is an issue with the Fiber Install on Sandia=Crest.

The ini=ial install entailed laying 6-8 ft of conduit from Centurylink Demark to a= Existing Conduit owned by tower owner, Sierra Nevada Towers.

The Tower owner has indicat=d the existing conduit has been badly damaged and there will be a need to =ay a new run of conduit from Dmark to his building. (40' rigid buried =nd 140' above ground galvanized conduit.), Sierra Nevada have indicate= a Estimated Cost of \$4500.00, with work been completed by Thursday next week

I did initial indicate to Rich, we c=uld perform this work for \$3500.00, but after reviewing scope of work with=Future Tech, I would advise Sierra Nevada perform this work.

Centurylink have indicated t=is could possibly delay install of Circuit

Do I have your approval to move forward with Sierra Ne=ada
