Subject: Re: lesson 1 , perception - reality- Krauss

Everything you say here makes sense !

I will open the links and study them - the illusions .

I will do as you advise re meeting Krauss with you to create a friendly dialogue- if that's possible If you're available I can come and see you around noon or 1PM I'm traveling thereafter Otherwise after we both come back Love

I doubt your dinner was as funny as mine , but yours was probably more meaningful. I was crying with laughter listening to Woody's stories of his childhood. sorry you couldn't make it. -- definitely next time

EXERCISE

first open <http://gizmodo.com/5981603/20-optical-illusions-that-might-break-your-mind> , these are some basic illusions. there are also sound illusions <<http://gizmodo.com/5981603/20-optical-illusions-that-might-break-your-mind>> <http://listverse.com/2008/02/29/top-10-incredible-sound-illusions/>
<<http://listverse.com/2008/02/29/top-10-incredible-sound-illusion/>>

-- many examples in two different sense realms -- sight and sound - the takeaway - one is forced to admit , that even though they KNOW the reality, after being informed , they still can't "see" it. -- no matter how hard one tries, knowing it is an "illusion", does not give you power to change even your own mind and see it for what it really is. -- it is a tough meditation especially the color illusions . aelsons checker illusion- <http://brainden.com/color-illusions.htm> <<http://brainden.com/color-illusions.htm>>

would you prefer the first meeting , you , me and lawrence=Krauss . so it becomes friendlier.

I suggest as a strategy , you express the desire to learn =here you might have misunderstood the science explanation. &nbs=; he is unaccustomed to humility.

you can then ask question re purpose, meaning. hope . and =sk for their mathematical , or scientific explanation. w= will stay away from time , infinities and quantum. at least for awh=le. I will show you the mathematicians magic trick of adding " a fudge factor" to fool the novice- &n=sp; how does he explain that if nothing is bigger than god or the infinite=. and 1 is greater than nothing. isnt it clear that one is greater t=an god. if you are a phyicist it appears you belie=e you are that " one " .

I am off to see chomsky at Harvard tomorw to =iscuss, the language of thoughts. he belives that the la=guage that we use first begins as an INTERNAL language. =nd only later gets expressed by hijacking some of the other biological&nbs=; mechanisms tongue. breath to create a " spoken language "

I am around all day if you are free. leave tomorrow until =he 22.
