ViaSat WiFi

Jeffrey

I spoke to ViaSat, James Persons,,  
Their current System KU band if installed by Gulfstream is \$600- \$800k.,

ViaSat New Gen system that you found is KA high speed will be operational by=early 2017,. For G550 and g650,. Due to their Vertical stabilizer radome, = GIV Vertical stab radome design is last on their upgrade list,.

Monthly cost is \$8995 to \$10k

Monthly Cost will be the same for the KA band which will include higher spee=s and more data packages

James will forward more information via email

Thx  
Larryv
