i agree i assumed this would have already been worked out. sorry, that being said chris is only there for a limited period and is for the moment the only one who really knows how to do these things. he should be given all the help he needs! there is little landscaping that is more important. I should have made sure all was settled before he started, but. . . the trees need oversight. im not sure what dupson knows at all. =C2 brice i d appreciate it if you would go easy on chris =s he is doing me a favor by being there after he quit. th=.

ps you and karen are doing a great job in a very difficult circumstance without much help. =A0 it is sincerely appreciated.

Good Evening Anna

It would be more efficient that Chris works with the team on the ground to get this completed  
Chris needs to be on the Boat to LSJ at 7am, once on site we will review project as you are aware there are many pressing projects which need to be worked out to insure everything is completed in a timely manner  
Chris needs to work with the team and the limited equipment on site which we will discuss once he arrives
