Hey Richard,

I spoke to Brice yesterday to let him know it would probably be the middle of next week before we get a proposal over. We are running a couple designs with different products to get to 1 GB with the availabilities we are looking for. If you need it sooner let me know and I will apply some internal pressure.

Best regards, </=>

Brice,

Please see the comments below and report back. I will put a quote together based on your response about the Sandia Crest coordinates and if you would rather have one link direct to the main residence rather than going through ZDC.

I think Coordinates for Sandia Crest tower are not accurate, please see below screenshot. I have assumed a tower out of multiple towers on the peak – GE file attached, please verify coordinates.

C2

Ran at 11 GHz in 40 Mhz channel with HAAM

Sandia Crest tower - ZDC Main tower: 26.5 mile

99.997% at 227 Mbps and 99.992% at 297 Mbps with 3ft-3ft dishes

</=>

As per pathloss, a link between Sandia Creat tower and Main Residence is possible in case that is desired.</=>

Sandia Creat tower - Main Residence: 27.53 mile=&/p>

99.997% at 227 Mbps and 99.991% at 297 Mbps with 3ft=3ft dishes

Good Morning Brice,

Attached you will find pricing for the Wave Fiber Circuit to be located on Sandia

Crest. <=>

Monthly Recurring 200M \$4,500.00 3yr Term and Non-Recurring Construction

Charges are waived 100% \$0.00

I did request pricing for 100M Circuit on a 3yr term, and the port price was the

same for 100M or 200M circuit.

Let us know if you have any questions or concerns. I can have the contract ready

for review upon your approval.
