I've been looking into Unit of Accounts=- [https://en.wikipedia.org/wiki/Unit\\_of\\_account](https://en.wikipedia.org/wiki/Unit_of_account)

Is the question whether we can figure out a better way to understand "80 value" in the context of the unit of account?

<=div>

I think I'm starting to see your point about "val=e" finally.

I think I'll write a whole other deeper and maybe more academic thing about "value =9D and accounts. Can you help me? (Although you already sort of have =A6 in strange Yoda sort of way... but still.)
