Subject: Questions...

Dear Jeffrey, I would appreciate if you could answer some of these questions in order for us to be on the same page and clarify some doubts we have:

1. We understand that master retreat should have a small "owner's kitchen" nearby for even=ual light snacks and light cooking. Should this kitchen be part of the mas=er retreat (same level) for your personal use or can the ladies' kitch=n service you and them?
2. Should the ladies kitc=en be completely enclosed or can it be open or semi-open into their living=dining room areas?
3. Will you eventually visit t=e ladies' living areas or it is exclusively for their use? Seating/Din=ng in their area should be considered only for four people?

=/div>

4. I am aware you mentioned that the master retreat windows will=not be opened so we will make sure to use fixed panels and nothing sliding=but Im a bit confused about your expectation for this room's facade. S=ould it be more mass than windows like your current bedroom or should it b= more glass and light like the image in the presentation?
=br>

5. During our last visit we discussed about putting the ladi=s' residence where the existing pool deck is; however, as we discussed=today, it might still be too close to the master retreat. We are exploring=the possibility to send them up to where the existing solar panels are, in=order to have more privacy but to keep the driving distance short. Does th=s make sense to you?

6. Do you like the concept o= having 4 identical rooms surrounding a new small pool/sunbathing area for=the ladies' private use? Or do you prefer that each room is somewhat u=ique?

7. We will design much nicer/open bathrooms=that the ones you saw drawn, however, do you want them to have open shower=/tubs? Or everything should be indoors?

8. One of=the four rooms/baths still has to be larger, or we should keep them all si=ilar in size?

Tomorrow we will have another team =eting and Im positive that we will have some more questions but these wil= help in the mean time.

I apologize for the con=usion caused by some of the unfinished images/drawings we sent today; we a=e sure that shortly we will be able to show you much better progress.

kind regards,

Ramon Alonso
President
