Jeffrey,

Bear with me cause this might be really dumb, but I was thinking about doing=something wrt Brexit stuff.

So my gut feeling is that the uk is not actually going to exit Europe but re=ardless I was thinking of placing two bets:

- 1) long eur/usd
- 2) long gbp/usd

In theory case (1) covers the exit and case (2) covers the stay.

How dumb is it?

Sorry to take up your time with this
