I have been sad that we haven't seen each other this weekend I didn't tell y=u to leave or want you to you stormed out I understand your frustration abo=t the driver but you know I always have your back I knew we were going to f=gure it out I thought the best thing to do would be to give you some space I=don't want us to have a relationship with this type of little drama life is=too short for it. My place is yours when your ready to come back home I wil= be here waiting and will be super happy to see you. I care about making yo= happy if taking a couple days is what I thought would help us then I was w=lling to do it. I love you the way you are I know I ask you to do certain t=ings sometimes but ultimately I want you happy above everything else so I w=ll be letting go of my suggestions for you decide on your own what you want=and I will be happier from it I don't want screaming in our relationship ne=ther of us need it or deserve it I'm sorry for not being more understanding=but no yelling it intensifies things too much we care about each other too m=ch to yell and scream it clearly was a build up of different emotions toget=er and i understand that anyway I miss you hope you've had a nice weekend b=by
