Good Evening Boss,

Allan, Omar, Hector and I finalized our meeting for the nee=ed materials required to equip GSJ with internet in a few days.

I am requesting you= permission to have a buried conduit pipe installed running from the GSJ s=lar farm to the Main Complex (In house). This is for Choice to pull the ne=essary cables down to the complex to complete the network.

Allan and Hector ar= confident that they will be able to start on Thursday barring any problem=. They will confirm tomorrow.

Also Boss FYI:

As per our discussion on the dragonwave licensing procedure= My findings are as follows:

I spoke to Ms. Hardly=at Micronet (the company that licensed your first dragonwaves) .=They confirmed the timeframe that FutureTech stated that this process does=take from 30 – 90 days.

The reason w=s explained to me as follows:

=C2◆

1. ◆=A0 FCC 601 application is filled out and submitted.
2. It is then=processed for an open sub-band frequency and filed with FCC
3. =he FCC submit letters to all private, federal, and public agencies t= verify that the sub-band will not interfere with existing frequencies in =he vicinity.
4. ◆=A0 They are given approximately 30 days to reply.<=>
5. =f there isn't a complaint filed the sub-band frequency is released=to be programmed into the radio.

=div style="margin:0in 0in 0.0001pt">

I verified th=s information with Hector and Allan during our meeting. They stated =pproximately the same steps, they have to do this every time they order an= kind of licensed radios.
