Subject: Fwd: URGENT - Some categories of expenses for 2017

Is this relevant?

"If you own and lived in the place for two of the five years before the sale, then up to \$250,000 of profit is tax-free. If you are married and file a joint return, the tax-free amount doubles to \$500,000. The law lets you "exclude" this much otherwise taxable profit from your taxable income."
