Thanks for this Sveva, it is a good start. However, the purpose of this exercise is for you and [REDACTED] to introduce good profiles to the restaurants so that they word is spread and that they come back with their friends and our network widens. With this in mind, it would be helpful if you can provide email address's for your recommend people below. It would also be helpful if you could provide a bit of narrative as to who they are. Ideally, it would be great if you can complete a form as the one above.

I am sure that this is work in progress, so please can you and [REDACTED] complete as much as this as you can tomorrow, and then we can go over it together. We will then ensure that your table= are booked in.
