If we put the screen in front of the window,we also have =he aic conditioning there so the screen will be =E2 inside" the room,and the seats will always be =rong

I thought ,why not to put the globe cabinet in the main =ntrance and to make a cabinet with a large tv inside on lift,it would =e the perfect distance from the sofa,the speakers will need to be =hanged

but will keep the same position so will avoid to have too =uch work in the room

Do you want me to study this =roposition?

Thank you

jean
