Subject: NY - Final plates and switches- Lutron

job was completed as originally planned last week

spoke with merwin and al and they both believe that with black switch and engraving the buttons are more visible and easier to see if you are still unhappy Al will make any changes you desire

outstanding items:

- a) 2 plates in sitting room on 3rd floor were sent in the wrong size by Lutron
- b) massage room - merwin believes that the black and brass look odd
- c) anything else you find when you are in residence

please advise
thank you

Hi Rich,

Here are some photos of the switches and plates. He might change his mind about replacing the arrangements of the buttons. As you can they are now visible compare to the white ones.

There are 2 more plates in the sitting room that needs to be changed. Lutron sent the wrong size.

Thanks

Merwin =ela Cruz
