Noam: One of the sessions during the (private) workshop in March is entitled Encoding and Generating Patterns: Language, Reasoning, and Creativity. Would you be willing to be one of the ~5 people who speaks for 10 min or so to get discussion going? The tentative make-up of the session (only 2 of the speakers confirmed at this time) is given below. It would be great if you could do this.

Lawrence

#### Session 2: Encoding and Generating Patterns: Language, Reasoning, and Creativity

- Barbara Landau "Language, Maps, and the Patterns of Human Communication"
- Noam Chomsky Title TBD
- Tamiko Azuma "Semantic Cognition within Healthy and Impaired Aging Parameters"
- Arthur Glenberg "Mirror Neuron System Adaptation through Language Comprehension"
- Jordan Grafman "Emotional Intelligence"

Randolph Nesse "Rethinking Depression in the Adaptive Brain"

Yeah, they wouldn't have published it. Look forward to seeing you in March --and on the screen! Always wanted to know a movie star.

Here is a little New Years present. Would have mentioned that we are the biggest terrorists but then they wouldn't have published it.

Looking forward to seeing you in March!
