Good Afternoon Dr. Krauss,

Our expectation for the meetings is that you will provide a response to each question that is posed to the best of your ability. If you wish to supplement your response(s), you are certainly permitted to do so within a reasonable timeframe following the meeting. If Erin or I have additional questions for you, following the receipt of any supplemental responses or information, we will schedule a follow-up meeting with you.

You are welcome to bring a support person to the meetings with you. However, this individual cannot be someone who may also serve as a witness in our process and they will not be permitted to participate in the meeting.

I look forward to meeting with you again next week.

All the best,  
Carla

Subject: Meetings on Tues

Dear Erin and Carla:

Following =n Carla's expectation, as described below, for our meeting on =uesday, I would like to clarify all of our expectations for the =rocedure of each of the meetings on Tuesday. I have expected =hat these meetings would be primarily informational meetings, in the =ense that you would provide me details and context, and that I can ask =questions to help me further understand these details, their context, =nd their relationship to ASU policies. There are some cases where = may be able to provide some immediate responses, but my expectation is =hat in general I will be surprised, and potentially upset by some of =he material you present to me, and I am concerned about framing an =dequate response under those conditions. Thus, I think it =ould be more useful, and fair, for this first meeting to be primarily =n opportunity for me to receive information and feedback, and then to =ave a subsequent meeting at which I will have the opportunity to =rovide useful information to you in response. Without specifics =t this time, it is hard for me to clearly determine what will be =ecessary, so this seems a reasonable approach to me. Does this =ound reasonable to each of you?

Also, I =anted to confirm that I have the option to bring along a support person =o the meeting if I think it will be helpful. Is that acceptable =o each of you?

Thanks for your consideration of these =ssues.

Lawrence

Thank you Dr. Krauss, I appreciate the updates as schedules and plans start to form or change.

I know that you are also working with Erin Ellison as she oversees a separate investigation from our office. If agreeable to you, we would like to schedule a 3 hour block of time on a day that you are in the Phoenix area. She and I will meet you with separately, but during that same timeframe. Monday, April 9th works for both Erin and I, if this ends up being a date that you are also available.

I look forward to your feedback or confirmation of a day and time that works well for you.

Hi Carla:

As you probably know, I am limited in my visits to the University at present. What you may not know is that I live in [REDACTED] with my family and commute in to Phoenix to work at the University. Because of the current situation this travel is also limited. We could have a Skype meeting at your convenience sometime in the next week or so. Otherwise, the next time I will be in Phoenix will be April 10-12, (one of these days I will be down in Tucson to work with a collaborator on a book). Can you also let me know if you will be presenting me new information at the meeting and can respond to it at a future meeting or not? If that is the case, perhaps you could provide me the information in advance.

Thanks very much. I look forward to hearing from you.
