Hi Jeffrey,

I'm trying to commit to plans for next year and figure out what will be the best way for me to continue to learn, build experience, and find innovative angles for cryptocurrency tech. <=div>

I'm currently in Israel with spotty wifi but I wanted to reach out before the new year to start a discussion. To be direct (and send a message before wifi cuts out), I was wondering if you would be interested in financing my continued research in this space, or if there were any projects you'd want to push forward that I might play a role in. I'd also love to learn more from you about how financial markets really work and build some of my own "exploits" at some point. If you think this could be fruitful, it'd be great to find a time to hop on a call and try to iron out details.

Happy holidays,

Jeremy
