Jeffrey,  
You are correct,  
My mistake= Dec 1st for TCAS 7.1,,, I read Dec 31st for Stage II aircraft noise ban. &=bsp;

Larry Morrison should have reminded me this date was approaching, his=reasoning for not brining to my attention, was  
"its only required in Europe=, I explained that we have to be able to fly to Paris, and what was he thin=ing?  
It's my e=ror at the end of the day!  
My apologies.

=his does not effect a flight from LSJ - Marrakesh - Acores - or NY area.&nb=p;

I'll have pricing from Banyan Avionics shop Monday, for upgrade and or e=change, I expect more competitive pricing,  
since they hold the ST= for TCAS 7.1

Mike Robinson at Boca Aircraft Maintenance informs:<=div> Larry, You have a= RT-920 TCAS processor ([REDACTED]  
[REDACTED]). For that unit to have 7.1 softwar=, we would need to convert it to a -914. You can either exchange yours or  
u=grade.

Thx

Europe airspace is requiring to have TCAS 7.1 softwa=e installed by Jan 1st, 2016 for the B727.

U=S. Airspace is not required to have TCAS 7.1 until year 2020.

Cost for software upgrade to 7.1 TCAS is \$60,511 (due to a=e and Mod status of B727 TCAS unit, we  
have to upgrade our box before 7.1 s=ftware could be installed).

We have 7.1 TCAS=already installed in GIV, when we upgraded to DU885.

I will have another price quote on Monday from Banyan Avionics Fort=Lauderdale.

Boca Aircraft Mx quote is \$60,51=.00

Thx

So you have an RT-920 TCAS process=r ( [REDACTED] ). For that unit to have 7.1 software, we would need to c=nvert it to a -914. You can either exchange yours or upgrade it. Here are t=e prices for the options we discussed:

STC package paper work. \$13,075.00

Exchange TCAS w/7.1=/p>

\$47,000.00

Labor \$436.00

<=r>

Total \$60,511.00

About 3-4 four hours are required to do the work and paperwor=.

So if you&=bsp;exchange it, you are looking at \$60,511 pl=s shipping.

Feel free to ring me if you have any questions.
