Jeffrey,
You are correct,
My mistake, Dec 1st for TCAS 7.1,,, = read Dec 31st for Stage II aircraft noise ban.

Larry Morrison should have reminded me this date was approaching, his=reasoning for not brining to my attention, was "its only required in =europe", I explained that we have to be able to fly to Paris, and what=was he thinking?

It's my error at the end of the day!

My apologi=s.

<=r>

This does not effect a flight from LSJ - Marrake=h - Acores - or NY area.

I'll have pric=ng from Banyan Avionics shop Monday, for upgrade and or exchange, I expect=more competitive pricing, since they hold the STC for TCAS 7.1</=iv>

Mike Robinson at Boca Aircraft Maintenance =nforms:

Larry,

You have an RT-920 TCAS processor (p/n 4066010-913). Fo= that unit to have 7.1 software, we would need to convert it to a -914. Yo= can either exchange yours or upgrade.

Thx

Larry

Jeffrey,
Europe airspace is requiring to have TCAS 7.1 software installed by=Jan 1st, 2016 for the B727.

U.S. Airspace is not required to have TCAS 7.1 until year 2020.

Cost for software upgrade to 7.1 TCAS is \$60,511 (due to age and Mod status of B727 TCAS unit, we have to upgrade our box before 7.1 software could be installed).

We have 7.1 TCAS already installed in GIV, when we upgraded to DU885.

will have another price quote on Monday from Banyan Avionics Fort Lauderdale.

Boca Aircraft Mx quote is \$60,511.00

Thx
Larry

So you have an RT-920 TCAS processor (p/n 4066010-913). For that unit to have 7.1 software, we would need to convert it to a -914. You can either exchange yours or upgrade it. Here are the prices for the options we discussed:

STC package paper work. \$13,075.00

Exchange TCAS w/7=1

\$47,000.00

Labor \$436.00

Total \$60,511.00

=p class="MsoNormal" style="margin:0in 0in 0.0001pt"> </=>

About 3-4 four hours are required=to do the work and paperwork.

So if you exchange it, you are lookin= at \$60,511 plus shipping.

Feel free to ring me if you have any questions.<=>
