Subject: Re: Cabin LED lighting

Not sure about 3 zones,,,, we have fwd cabi= and Aft cabin upwash and down wash light control for the cabin,,,, If y=u considered Galley a zone, and Aft Lav a zone,,, we would actually have 4 z=nes,,,, The 2 Zones LED light guy is referring to is fwd and AFT c=bin zones

Some G550 have mid cabin partition= that would make it a 3 zone aircraft i think??

If=Eric says potentiometers, i guess they would work,,,i like to have gulfstre=m confirm that as well,

are nt there three zones? eric think potentiometers a=e needed

Thanks,
Hi Pete,

Tha=ks for the information. The conservative quote is \$35,000 for the ent=re cabin with 2 zones. We're very close to TEB and once I am=back I can come out and visit the plane whenever available. Once I h=ve the detailed information I will be able to provide a concrete quote.

Thanks,

Shervin
