Jeffrey,  
just looking at new update for Geneva weather, current weather is 100 overcast with 1/2 mile vis.,  
tomorrow forecast for our arrival time of Noon, is 500 scattered cloud layer, with 3 mile visibility with Fog, higher cloud  
cover at 20,000ft, by 4pm they are forecasting 300 overcast with 1 mile vis., appears to be fog in Geneva tomorrow,  
most of the day, just heads up,. I'll double check forecast in the morning as well.,

thx,  
Larry
