To confirm,

The goal is to have Gulfstream re-veneer the Pocket door, so it hides any op=nings such as Vacant/Occupied and T Handle,. If Gulfstream can make the Poc=et door look like Eric's one in the photo below, and Maybe Plate or=stain the door handle to match the Dark Eucalyptus veneer,

The goal is to have the Pocket door as much veneer as possible, camouflage t=e handle,? I'll request a drawing for your approval.

Original Eric fabric panels, Note the fabric panel to cover the monitor is e=ternal, a bit bulky?

Note, the monitor below is almost same color as veneer with no power, Eric w=ll have to move the monitor fwd to make a gap for the Veneer cover to slide=up from behind,,, or do you prefer a sliding door in Veneer with the slides=external as he did in the photo above? Just some thoughts.
